Current spine point	37
Expected pension age	65
Period to promotion to senior lecturer (years)	na
Period to leaving the scheme (years)	na
Career break	
- from age	36
- length (years)	5
Part-time employment	
- from age	41
- length (years)	8
- proportion	0.5

Expected future accruals:

	At retirement Pension pa	Lump sum	Total expected benefits
For existing members under age 55			
- UCU proposals	£25,300	£75,900	£801,000
- EPF proposals	£24,100	£72,300	£702,000
Reduction	£1,200	£3,600	£99,000
For new entrants			
- UCU proposals	£25,300	£75,983	£801,000
- EPF proposals (CARE with 1/80 accrual rate)	£18,600	£55,800	£542,000
Reduction	£6,700	£20,183	£259,000

Notes:

- 1 Future benefits are expressed in real terms (discounted by expected increases in the CPI)
- 2 Expected pension age is the age at which the member expects to take the pension
- 3 EPF pensions will increase in line with the CPI, UCU pensions in line with the RPI
- 4 The figures for the EPF proposals apply the current early retirement factors to pensions accrued from 2019 onwards for which the NPA is greater than 65
