UCU
University and College Union

1 Full consultation with UCU and other campus trade unions to ensure policies are in place to safeguard the health and safety of staff and students.

2 No default face-to-face teaching in line with I-Sage recommendations. UCU supports online/remote teaching as the default position in higher education.

3 Facemasks should be worn in all inside spaces except for individuals unable to wear them for health reasons.

4 Sanitising stations and facility cleaning regimes to be implemented across all university settings.

5 Risk assessments must be carried out on site and for all staff attending university premises.

6 Test, trace and quarantine measures should be in place. All staff and students should be tested on arrival on campus.

7 Two-metre social distancing should be maintained wherever possible.

8 Infection rates must be stable and not increasing before any resumption of campus activities and face-to-face teaching is considered.

Roadmap for a safe return to university campuses

Guidance for UCU branches
