2

Use social media to show solidarity

and that climate change is a trade union issue.

Use: #unions4climate #fridaysforfuture to set out what action you are going to take as a union member.

Promote the union's resources to members

4

Set up an environmental committee

or climate change and sustainability action group in your workplace/branch.

Sign up to become a workplace rep

such as a health and safety or green rep.

5

6

Check if your local trades union council or regional TUC

are active on this issue and engage with tackling the climate emergency at a city and region level.
