MoG changes: Underpinning Principles

- “They must secure for providers greater autonomy to act on behalf of learners within the national frameworks...”
- “Embrace self-regulation and governance: The existence of strong, autonomous and self-improving FE providers should be supported; it is better that institutions self-regulate within a clear framework of national strategy and targets.”

- Ed Balls & John Denham, 27 November 07

What's next for staff governors?

- Have your governors discuss self regulation
- Do they have a view about whether it makes a difference?
- Are you mobilising staff interest?
- Solidarity
