19 February 2013

Dear Mr Hill

Re: Review of Education Services in Wales

UCU will not be responding in significant detail at this stage in the process, it is much more appropriate for our school teacher colleagues to express their views in relation to the three questions about the school system.

We would ask that the review to consider the outcome of the Government's Transformation policy in relation to Further Education delivery and consider the networks necessary to deliver the 14-19 agenda.

Also that consideration is given to the decision to de-regulate the Further Education sector as outlined in the Government's White Paper and the impact that may have on compatible governance arrangements for 14-19 agenda.

We look forward to seeing the outcome of your review and engaging more fully in the formal consultation.

Yours sincerely

Margaret Phelan
Wales Official
