12.00 – 1.00pm Workshops

The conference will break in to two workshops: one for members working in Higher Education and one for members working in Further Education. It is an opportunity to discuss equality issues facing each sector.

Paul Bridge, Head of Higher Education and Andrew Harden Head of Further Education will attend the appropriate session.

During the three days of the Conference we will be asking members to have their photograph taken holding a card which will describe their own identity. This is to support this session and further work on intersectionality.
